

Name: _____

Date: _____

Solve each problem. Show your work in the box.

Write your final answer on the answer line (or in the blanks shown).

Use the strategies you learned in Lesson 5.05.04.

1 Multiply Unit Fractions

Find each product.

$$\frac{1}{2} \times \frac{1}{3} = \underline{\hspace{2cm}} \quad | \quad \frac{1}{4} \times \frac{1}{5} = \underline{\hspace{2cm}} \quad | \quad \frac{1}{6} \times \frac{1}{4} = \underline{\hspace{2cm}}$$

Answers _____

2 Unit Fractions – Pattern

Fill in the blanks and describe the pattern.

Describe the pattern. What is $\frac{1}{10} \times \frac{1}{10}$?

Answers and Pattern _____

$$\frac{1}{2} \times \frac{1}{2} = \underline{\hspace{2cm}} \quad \underline{\hspace{2cm}}$$

$$\frac{1}{3} \times \frac{1}{3} = \underline{\hspace{2cm}} \quad \underline{\hspace{2cm}}$$

$$\frac{1}{4} \times \frac{1}{4} = \underline{\hspace{2cm}} \quad \underline{\hspace{2cm}}$$

$$\frac{1}{5} \times \frac{1}{5} = \underline{\hspace{2cm}} \quad \underline{\hspace{2cm}}$$

3 Model the Multiplication

Draw a rectangle model to show $\frac{1}{3} \times \frac{1}{4}$. Shade the product.

What fraction of the whole rectangle is shaded? Write the multiplication sentence.

Answer _____

4 Fraction of a Fraction

A pizza is cut into 4 equal slices. Leo eats $\frac{1}{2}$ of one slice.

What fraction of the whole pizza does Leo eat? Draw a diagram to show your answer.

Answer _____

5 Always Less Than Both?

Sophia says: "When you multiply two unit fractions, the product is always smaller than either fraction."

Is Sophia correct? Verify with $\frac{1}{3} \times \frac{1}{5}$ and $\frac{1}{2} \times \frac{1}{7}$. Explain why multiplying two fractions less than 1 always gives a smaller result.

Explanation _____
