

Name: _____

Date: _____

Solve each problem. Show your work in the box.

Write your final answer on the answer line (or in the blanks shown).

Use the strategies you learned in Lesson 5.07.04.

1 Area of a Triangle

Find the area of a triangle with base 14 m and height 5 m.

Area: _____

2 Area of a Triangle with Fractions

A triangle has a base of $6\frac{1}{2}$ in. and a height of 4 in. Find the area.

Area: _____

3 Find the Missing Dimension

A triangle has an area of 24 square feet and a height of 8 feet.

What is the base? Show your work.

Base: _____

4 Applied

Sophia is painting a triangular wall section with a base of 12 feet and a height of 9 feet. One can of paint covers 50 square feet.

Does Sophia need more than one can of paint? Explain.

5 Reasoning

Two triangles both have an area of 20 square centimeters.

Must they have the same base and the same height? Give an example or explain why not.
